

# USA

*school children design solutions for the world's greatest challenges*

## Helps us celebrate Oct 2<sup>nd</sup> as Be the Change Day!! Design for Change 2011

### STATE SUPERINTENDENTS AND COMMISSIONERS WE CHALLENGE YOU!

**Design for Change** is a national school challenge calling upon all students and mentors to drive positive change in their community through focused projects.

Spanning over 33 countries, and 300,000 schools/organizations, **Design for Change** provides children the **opportunity, inspiration and framework** to design and share projects as part of a global movement.

#### What you can do NOW!

1. The teachers and school districts in your state look to your leadership, and the tools they need, to sustain and increase the passion they already have for creating positive change. **Forward this email NOW!**
2. Public schools have a long history of building civic mindfulness and citizenship. Support your schools and school districts. Help them continue building these needed competencies. [Sign up](#) today for FREE weekly tips, resources and videos.
3. Do you know of companies and other organizations which are *serious* about improving America's schools? They may want to join *ThinkFun* and other leading companies and organizations in becoming [SPONSORS](#) for Design for Change. **Forward this email to these contacts NOW!**
4. Are the school districts and schools in your state already changemakers? Then share your story with Design for Change and be [RECOGNIZED](#) for your great work!

Let's put America on the map as a leader in service learning and celebrate our collective passion to create positive and meaningful change in the world.

Direct your school districts to gather their school teams and have them sign up today [www.designforchange.us](http://www.designforchange.us)

Let's work together to help children realize that they are the true change makers of TODAY!
